**Declaration on  
prevention of 'Money Laundering' and 'Financing of Terrorism'**

'Money Laundering (ML)' and 'Financing of Terrorism (FT)' are the financial crimes having huge economic impacts and increasingly become sensitive issues in our country along with other world. These activities generate financial flows that involve the diversion of resources away from economically and socially productive uses and these diversions can have negative impacts on the financial sector as well as corrosive, corrupting effect on society and the economic system.

Bangladesh Financial Intelligence Unit (BFIU) has been working in our country to prevent money laundering and financing terrorist groups through banking channels. Bangladesh Infrastructure Finance Fund Limited (BIFFL) being a Government owned Financial Institution is committed to make the best effort to prevent 'ML' and 'FT'.

In any Financial Institutions, 'ML' and 'FT' are initially checked at the point of depositing money into the Institution. Through this process illegal money enters in the legal channel and comes in legal existence by multilayering process, or utilized for terrorist financing. BFIU established a system for prevention of 'ML' and 'FT' and direct the financial institutions to impose a control mechanism so that suspicious transactions/deposits can be identified. However, since BIFFL does not take deposit from the public like other financial institutions so far, it can avoid the risk of 'ML' at depositing stage. BIFFL finances various infrastructures, environment friendly and energy efficient projects. Besides, it finances Small and Medium Enterprises (SME) and Woman Entrepreneurs under Bangladesh Bank's SME and Woman Entrepreneurs financing scheme. At this point, BIFFL is very much concerned and diligent for utilization of its fund by the borrowers. BIFFL credit team conducts proper investigation and due diligence of the borrowing entities.

BIFFL had established a Central Compliance Unit (CCU) headed by the Chief Anti-Money Laundering Officer (CAMLCO) and developed policy and guidelines on Anti-Money Laundering (AML) and Combating Financing on Terrorism (CFT). The CCU maintains 'Know Your Customer' (KYC) profiles of the borrowers and often visits the projects to visualize the utilization of BIFFL's fund. It arranges in-house workshops and discussion sessions in different times round the year to create awareness on 'ML' and 'FT' among the employees of the organization. Besides, employees are sent for outside training arranged by Bangladesh Bank from time to time. This Unit is assigned to assess the efficacy and adequacy of the policy and internal control and procedure to counter 'ML' and 'FT'. Being a reporting agency BIFFL is determined to combat the 'ML' and 'TF' affairs in compliance with all the provisions of the prevailing Acts, Rules as well as Circulars issued by BFIU.

It is important to note that, any non-compliance on AML and CFT issues might be penalized by the regulators as per provision of the Act both at organizational and individual level.

Therefore, BIFFL's employees working in different Departments/Units are advised to comply meticulously with the Policy and Guidelines on AML and CFT and the circulars issued by BFIU from time to time.
